

The Wainwright Star

VOLUME IV

WAINWRIGHT, ALBERTA, WEDNESDAY, JULY 17, 1912

NUMBER 43

ELEVATOR TO BE OPENED IF THERE IS SUFFICIENT GRAIN IN VICINITY

The local Board of Trade, who have been endeavoring for some time past to arrange for the opening of the elevator here for a few weeks this summer are in receipt of a letter from Richardson & Son in which they ask the probable amount of grain in the district and state that if satisfactory arrangements can be made with their local manager the elevator will be opened for at least two weeks.

Sec. Trans King states that the amount of grain still unsold would total to about three or four carloads.

Further notice will appear in the Star if satisfactory arrangements can be made.

Sedgewick too is reported as having experienced a gold find. Whether or not it was discovered in a similar place as that recently brought to light in Manitoba is unknown. Anything for a sensation nowadays and Sedgewick probably expects one to come its way.

From September 17th to 20th, the International Congress of Dry Farming will be in progress at Lethbridge and exhibits from all parts of the world will be shown. Farmers in this locality could not learn more than by taking a trip to Lethbridge while this is in session.

Successful men have attained the topmost rung of the ladder by work and toil, and attention to what they believe will eventually bring about success. Those who allow their minds to become void of progressive ideas resemble those who sleep in idleness.

Property in the Wainwright annex, which was originally purchased from Mr. George Reid, who homesteaded that quarter section, has taken an upward leap in price during the past few months, and lots which originally sold at \$60 are now selling at from \$110 to \$125, and a ready market is being found for the sale of same.

The donor and trustees of the Dawson Baseball cup have decided that thereup which heretofore has been open to amateur teams only, will in the future be thrown open to professional teams also, as there do not seem to be any strictly amateur teams along the G. T. P. this year.

Wainwright once more has a sub-agency of the Dominion Lands and Timber Office, Postmaster McLeod opening his appointment and opening for business last Friday. Government Inspector Bannerman of Edmonton was down to open the agency returning to the Capital on the following day.

Mr. John Whitelock, whose ranch is located on the Ribstone Creek south of town, has just purchased a fine Percheron Stallion. He has been a prize winner in many western shows, and will be a valuable acquisition to the south country.

Marked progress is being made by Mr. J. O. Bonnier, manager for the Quebec & North West Land Company, who is busily engaged in agricultural pursuits north east of town. The crops are well advanced, despite the fact that rain in that locality came rather late. Especially is this true of the flax which is now at a sturdy stage of its growth.

WILL WRITE NOVEL ON WESTERN CANADA

H. C. W. Lat, Passenger and Colonization Agent of the G. T. P., and Emerson Hough, the well known Chicago author, passed through town last Thursday on their way to Ft. Smith. On their return trip they expect to stop off and visit the Wainwright National Buffalo Park.

It is understood that Mr. Hough is collecting information for a novel which will appear at some future date.

ENGINEER CROFT PLACED FIRST CAR ON COAL CHUTE

The big G. T. P. coal chute, which has been under construction for the past month, is practically completed. The chute is 354 feet in length, and has four pockets, each of which will contain 250 tons of coal.

To Engineer Croft belongs the distinction of placing the first car of coal on the new chute. This was accomplished on Wednesday last, and was carried off at the first attempt.

R. B. DAVISON OPERATED ON

Popular Bank Manager Operated on in Edmonton Appendicitis

R. B. Davison, who has been ill for the past two weeks, was taken to the hospital at Edmonton, last Saturday.

His trouble was not clearing up as rapidly as expected and it was thought best to get him to the hospital where an operation could be performed if it proved necessary.

LATER—By a special wire to the Star just before going to press, it was learned that Mr. Davison was operated on yesterday and is doing nicely.

Architect E. D. Stimpson had business in Chasvin to-day.

Frank Bateman returned home Tuesday after a week's visit at the Capital.

Dr. McQueen will be found at his new office, in his residence of 5th, from 9 A.M. to 5:30 P.M.

H. W. Foster, of Winnipeg was a pleasant visitor at the Star office this morning.

Mr. Robt. Pawley returned Monday from Owen Sound, Ont. Accompanied by his wife and son.

Messrs. Frank Bowtell and Martin Kilfoyle, of Edmonton, arrived on Thursday train for a few days visit in the Buffalo town.

Dawson Riene and Ingram Dawson, of Winnipeg are visiting with their Aunt Mrs. J. H. Dawson. They have been college at Winnipeg and spending their holiday in the Buffalo City.

Mr. and Mrs. Charles Barber and son Curtis of Winnipeg, are visiting at the Dawson home this week. Mr. Barber, who is chief Game Warden of Manitoba, is in the west for the first time, and expressed himself as highly pleased with Wainwright and district.

Pedigreed stock seem to be popular in the Wainwright district. The latest importation is a thoroughbred Holstein bull calf, about five months old, from the Evergreen Herd, Rosemore, Ont. The animal was consigned to R. J. Mills of Greenfields, and arrived by express last Friday.

CLEVER FAKIRS ROUNDED UP

Pose as Live Stock Inspectors for Dominion Gov't and Now Await Trial at Ft. Saskatchewan

Two of the smoothest fakirs who ever worked a "con" game in Canada, were placed under arrest at Viking last week by Constable Webster, R.N.W.M.P. Passing by the names of Ross and Fairdale, they started operations at Tolled, passing selves off as Government Stock Inspectors, from Ottawa. They carried cards bearing their names and "Government Inspector," also a receipt book with "Government Inspection Department" printed across the front.

Their plan of campaign consisted in passing themselves off as Government Stock Inspectors, Ottawa, and charging farmers 25 cents per head for inspection.

Neither of them had evidently any knowledge of stock or the diseases they are subject to, and an account of their actions reads like a volume by Mark Twain. The first examined, had its temperature taken under a fore leg. A cow had its temperature taken by placing the thermometer in its mouth, after which he pinched its back, and pronounced it sound. A small pig with a sore eye was brought to them and was pronounced distemper. He gave them a small pill to dissolve in water with which to bathe the inflamed eye, and a prescription to the local drug store which read "Eye wash for Inflamed Eyes."

Suspicion was aroused by their evident lack of knowledge concerning stock by conflicting stories regarding the amount of their salary, which varied from \$4000 to \$8000 per year, and the fact that they claimed to represent the Ottawa and not the Provincial Government.

Two other serious charges are also recorded against them and it is practically certain that they will receive heavy sentences at the next term of court. They are at Fort Saskatchewan at present, awaiting trial.

Bert Cox is working on a large sign for Bissan & Son this week.

Miss Esther Peterson, of Heath is visiting at the Gallingor home this week.

Mr. Dawson returned home last Saturday after a several days business trip to the Capital.

A dance was given at the home of Mr. Tom Cooper last Monday evening. A very pleasant time was enjoyed by all present.

Lisson & Son have just installed a new cash register upon their counters. It is of the latest make, and a machine to be proud of.

Conductor John McKay who was at two times breaking on the G. T. P. out of Wainwright was instantly killed in a railway accident at Graham, Ont. this week.

Contractor Bert Cox has had his gang painters busily engaged on the Wainwright Hotel for the past week. They expect to finish it in the course of the next few days.

PHONE WILL LIKELY BE INSTALLED IN STATION

H. C. King Sec. Trans. of the local Board of Trade, has just received a letter from A. B. Smith, Supt. of T. P. Telegraph, stating that a telephone may be installed at the local depot, provided the cost of maintenance is kept up by the parties interested.

The Board of Trade have taken the matter up with A. G. Richards, Supt. of Alberta Government Phones, and it is expected that a telephone will be installed in the depot with the next few days.

Basement About Done

The basement of the new Wainwright Fire Hall is rapidly nearing completion, all being finished, in fact, but the floor of the storage tank.

The forms supporting the walls were taken down Monday, and the work, when viewed by experts, was pronounced to be of the very best quality.

H. B. Walker has been in active charge of the work, and has proven himself an expert on that class of work.

Tenders for the carpenter and brick work are being asked for in this issue of the Star, and it is hoped the building will be entirely completed and ready for occupancy by Oct. 1st.

The exodus of farmers from Ontario to the Prairie Provinces still continues and within the past few days 400 such men left Toronto on a Grand Trunk Train for Wainwright, Canada. This is the record for the season. The train which consists of ten coaches, is bound for Edmonton, where the excursionists will be distributed by the G. T. P. to their several destinations.

C. P. R. LAND MOVING

Quite recently, Mr. H. Hendrickson of Battle View purchased a fine quarter section of C. P. R. land from the Wainwright Realty Co., this being the N. E. 17-47-4. Archie Balmer of Gilt Edge also purchased the S. E. 15-46-5 which is also C. P. R. land.

Board of Trade Gets Hints from R.J. Daly

Incidentally three of the several citizens who journeyed to Winnipeg, to attend the annual fair at that point were members of the local board of trade, S. E. James being the President, N. E. Cook, the vice-president and Mr. C. T. Lally one of the executive members. During their brief stay in the city, considerable business of important nature was transacted and business which should eventually mean much to the town and community.

The president, Mr. James, had occasion to call on several parties in Winnipeg in reference to business of local concern. As a result of this visit to Manitoba's capital, the spur track for the new flour mill will be put in almost immediately. An additional grant of several acres of land will be made to the brickmakers which is badly needed by these enterprising promoters. Arrangements were also made with a view to securing supply contracts for Wainwright in connection with the purchasing department of the G. T. P.

Mr. R. J. Daly, Publicity Commissioner for Alberta, was called on by Vice-President N. E. Cook and many valuable pointers were received which should materially aid in board of trade work.

CITIZENS GIVEN A COLD SHIVER

Fire in Wainwright Hotel Gave Citizens Quite a Scare in View of Lack of Water

The Fire call at the Wainwright Hotel on Saturday morning gave the business men a little cold shiver. Luckily however the services of the brigade were not required. The fire was confined to the stove pipes and there was more smoke than fire. The town is not in shape for handling a big fire and it would be safe to say that had the Wainwright Hotel got going the North side of Second Avenue would have been wiped out.

The brigade at the present time are not in a very satisfactory condition. No fire hall to house the equipment, no water to fight fire with, no expert to handle the Gasoline Engine, Chief Washburn anxious to be relieved of his position. Who is to blame? Certainly not the people, they voted all the money required a year ago.

Not only should a fire Chief be appointed, but also a fire warden or fire inspector. There are other matters to be attended to besides training and organizing a Brigade. All Chimneys should be inspected before they are permitted to be used. The cause of every fire should be investigated. The haste in erecting new buildings, the use of too much combustible material, the make shift buildings, the slip shod stove pipe fittings, are all matters that should be attended to. We fail to appreciate the danger that exists almost everywhere. We lack the moral courage to insist upon our neighbors having due regard for our own safety.

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is almost certain to be needed before the summer is over. Buy it now and be prepared for such an emergency. For sale by all dealers.

Conductor Bob Patton, who has been running on the Mirror branch for some time past, was taken to the General Hospital, Edmonton, on Thursday. He is suffering from Typhoid fever.

PRINCIPAL McLEAN WON PIANO FOR LOCAL SCHOOL

Before judges selected practically by the contestants themselves, the points scored by the various candidates in the Journal circulation contest which closed last Thursday, were counted last night and the winners determined.

Principal W. J. McLean of Wainwright, was successful in carrying off third prize, which consisted of a fine \$500 Gounley Piano. Principal McLean has been untiring in his efforts to secure this prize for the Wainwright School, and the school has every reason to be proud of their piano, which arrived Monday evening from Edmonton.

It will be taken to the School house to-day by the members of the School board, Principal McLean being absent.

MARRIED—This afternoon at the Methodist parsonage by the Rev. Thomas Phillips, John William Kelly of Edgerton to Miss Myrtle Isabelle Jackson of the same place.

FIFTEEN NEW STATIONS IN PAST TWO MONTHS

Fifteen new stations have been placed under construction during the past two months along the lines of the Grand Trunk Pacific, five of which have been completed. These are—Victoria Plains, Delburne, Wakaw, Totzke, Trenville, Elstora, Cudworth, Lucerne, Alpland, Getkie, Yellowhead, Edgely, Edenwood and York Lake. Of those already under construction Hinton, Watrous, Henry House and Zehner have been completed.

7 HUMAN SKULLS UNEARTHED IN R.I.

Operations were recently suspended for a short time on the road bed of the Southern New England Railway at Providence, R. I., when the scoop of a giant steam shovel came up with seven skulls and other human bones. An investigation revealed the fact that the shovel had dug into a burial ground dating back previously to the landing of Roger Williams and used as a cemetery by the Narragansett Indians and their descendants.

BUFFALOES IN THE LEAD

In the bascule tournament at Hardisty which is being today, the game between Wainwright and Hardisty was clinched by the Buffaloes and this evening the final game for the purse is being played off.

The sawmill is probably being played with the Wetaskiwin team which is a strong one.

WILL VISIT BANFF

Mrs. A. E. Mills, who left here last week for Calgary, did not return with Mr. Mills on Wednesday last, but is still visiting Mrs. T. A. Sheldon and Miss Margaret, both of whom are sisters of Mr. Mills. Mrs. Mills will visit Banff before her return here.

Ernie Davis, who returned last Tuesday from Provost, reports wheat fifty-four inches high in that district. While absent Mr. Davis proved up on his homestead.

MARRIED—At the Presbyterian Manse, Wainwright on Friday, July 12th., Miss Maggie Taylor, of Montreal to Mr. John Murray of Chauvin.

Completing World Tour

W. Clark, of London England has been visiting his son, the local brickmaker for the past week.

Mr. Clark is completing a tour of the world, having left England last September visiting South Africa, Egypt and Australia where he spent some months with his son, who is in business there.

He leaves for Edmonton from which point he will return to his home in England, via Winnipeg and Montreal.

While assisting Oliver Reid in raising a gasoline engine, last Monday afternoon, David Feich had the misfortune to fall and break his left arm.

Dr. Little left yesterday for Edmonton, taking the daughter of Mr. and Mrs. Boyd to the hospital, where she will be operated on for appendicitis. He expects to return Thursday or Friday.

RILEY SPORTS DAY WAS SUCCESS FROM EVERY STANDPOINT

The Riley sports, which were postponed from July 1st, to last Friday, were well attended and the celebration was a success in every respect.

The baseball competition for the Riley Hotel, Co's. Shield resulted in an easy victory for Barden Athletic Association, the final score being Barden 14 Holden 3.

The foot ball match between Riley and Holden for the possession of the Riley Athletic Association Cup was won by Riley after a hard fought game.

There were numerous other athletic events and several horse races, the day's celebration winding up in a grand ball in the evening.

JUMPED THROUGH TRAIN WINDOW

Well Known Holden Man During Fit of Temporary Insanity Jumps Through Car Window

A casualty which will probably result fatally happened last Friday afternoon, at about 6 p. m. on G.T.P. train No. 1 between Holden and Bruce.

While the train was moving at a rapid rate, a man who has since been identified as Willie Appleby, of Holden, was seen by several passengers to raise a window and lean out over the casing and after hesitating for an instant threw himself from the train.

The train after running some distance was finally brought to a stop, and backed to the place where the marks of his fall could be seen in the sand, but he himself could not be found.

The section gangs from both Bruce and Holden were sent out, in company with several of his relatives, to search for the missing man, and he was finally discovered in a willow bluff some three hundred yards from the track.

When found Appleby was unconscious, showing several bruises as the result of his fall and both wrists cut, evidently with his pocket pen knife which was still in his hand.

Mr. Appleby was returning from the States to his home at Holden, and was supposed to have been in trouble while across the line, which probably led to his suicidal actions on Friday.

LOST—One Plain gold ring With initials R.P.K. on same. Finder will be rewarded upon return to STAR OFFICE.

The mammoth Eskman Show arrived in town to-day, and showed before a very small audience. Fortunately it was no worse than was expected.

Mrs. C. M. Burke and son, of Edmonton, arrived in town Saturday to join her husband, who is at present assisting in the Gano Photographic Studio on Second Avenue. She expects to return to Edmonton next Thursday.

W. S. Blakely, Picton, Ont., is visiting Mr. Steve Bowerman this week. Mr. Blakely sold his cheese factory in Picton, the largest cheese factory in Ontario, a short time ago, and is at present investing in western property.

BORN—On Thursday, July 11, to Mr. and Mrs. George Rosholt a son.

WAINWRIGHT, ALTA., WEDNESDAY, JULY 17, 1912

A TALK WITH ADVERTISERS

Advertisers, who, as a general rule with all country newspapers, form the chief mainstay of the publication's support, too often consider that their advertising is but so much charity thrown in the direction of the publisher and that with out it the paper would die a natural death. In many respects this is true, although it should not be presumed that a newspaper is entirely an object of charity. Rather it should be considered in the light of support and co-operation and that without these the newspaper would cease to exist.

When a merchant looks at it in the light of charity he perceives that the particular newspaper, on which he is bestowing his donations, is worthy of such and is really an asset to the town. Otherwise he would not be so foolish as to throw away his good money on something from which he received no returns. But the argument of charity is all wrong and should not be entertained in the mind of any live advertiser, who believes in the modern system of running his business.

Another thing that places the newspaper in somewhat of an insignificant position is the advertising which is allowed to run year in and year out without any change in its set up. In the first place it reflects a small estimation of the advertising columns and rightly presumes that the space is of little value. Too often it is the case that some will claim that their advertising does not pay. How could it pay if the particular merchant failed to keep his fresh store news before the people who read the paper? If the merchant paid as little attention to his customers as in many cases he does to his ads, he would very soon be compelled to close his doors.

Here then is the humble suggestion which we offer. Of course it means more work for the newspaper to change ads, but we are desirous of making these ads pay. Advertisers should change their ads at least once every two weeks in order to get the best results. Those who have tried it even at this office admit that their money in this manner spent brings results which in many cases surprise them.

LIQUOR STORE SEEMS FORGOTTEN

Apparently the discussion in regard to a wholesale liquor license being granted for an establishment here has subsided, but from the heat in which it was debated several weeks ago, it needs but another spark to start further and perhaps more aggressive arguments on the street corners.

EXPECTED HAPPENED IN SASKATCHEWAN

The expected happened in Saskatchewan on Thursday last and Premier Scott is again in power. From the start it was recognized that it was merely a question of majority, in view of the reciprocity cry which figured in the campaign, which was the most exciting ever experienced in Western Canada.

Don't be too ready to believe every evil thing you hear about your neighbors. Nobody has ever lived long enough in this world that did not have bad stories told about them. You may try to convince yourself that you are not complacent about your neighbor that would be difficult to prove and in such cases you had better remain silent.

For soreness of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

LOST—One dark brown range gelding. Weight about 1000 lbs. Large wart on neck behind the ear. Good reward. R. Aykroyd.

Principal

AUTOMOBUBBLING

Under the spreading willow tree a stubborn auto stands,
And Smith so angry man is he, with trouble on his hands.

He grows angry to himself and crawls beneath the car,
And wonders why it didn't burst before he got so far.

The car looks to be the cause of all his woe,
No lights, half a dozen bolts but still it doesn't go.

And then he tries the steering gear but finds no trouble there—
Till wet with perspiration, then he quits in sheer despair.

He stands beside the road to give his brain a chance to cool,
And ponders on his training at the correspondence school.

And then he starts the job once more until by chance 'tis seen,
The cause of all his trouble is—he's out of gasoline.

INDUSTRIES GROWING

Economic Development, Calgary, Jan. 24, 1920.

The increase in Wainwright's factory output has been such that considerable attention is being directed to industries in the West. In 1900 the value of the manufactured output was \$7,000,000; in 1905 it had increased to \$11,950,000; and in 1910 the Industrial Bureau census gave \$25,000,000 as the total. In the 20 factories now operating there are 12,500 hands employed, while \$20,000,000 is invested in capital. The iron, structural steel, brass foundries and machine shops employ over 4,000 hands. Following the iron industry, other manufacturers rank according to the number of employees, as follows: Employing from 5,000 down to 200 hands in each—brick, pressed stone, cement products, printing and publishing, rubber—mill work, clothing, brewing and milling, shatter and packing house, metal, tin, galvanized iron and wire, fence work, paint and oil, milling and other cereal lines, biscuit and confectionery lines, harness and saddlery. This shows plainly that the city of Wainwright is growing industrially. The Provincial returns show that seventy-one charters for purely industrial companies were issued in 1911, with a combined authorized capital of \$7,495,000. Wainwright being named as the headquarters of each company registered. Not only have new companies located, but older industrial concerns have found it necessary to extend their working capital to take care of the growing trade. Nineteen firms increased their capital from \$3,350,000 to \$4,500,000 during the year of 1911.

CANADIAN WORKINGMEN

Living and Working Under Better Conditions Than in England.

The British Board of Trade has issued a complete and thorough description of working class conditions which serve as a comparison with conditions under which Canadian workingmen are living to-day. Take Birmingham as typical of Old Country industrial centres. Then the prevalent types of houses have three and five rooms respectively. Nearly 50 per cent of the population live in 4-room houses. Any poorer families with Canadian cities must recognize that the homes of the working classes, particularly those of the artisans are a great improvement on this. In Hamilton, the predominant type of workingmen's dwelling is a fire-proofed cottage, attached to a garden in nearly every case is a 100 ft. wide strip of land. These houses are constructed of all fireproof materials, and are all furnished with sanitary appliances. But the significant point does not lie so much in the character of the house as in the fact that in the majority of instances, the workman owns his own home. In fact, it has been estimated that at least seventy per cent of the men employed in Hamilton factories either own their houses outright or are engaged in purchasing them with their savings.

Next as to wages. In Birmingham payment is by piece work in many instances and individual earnings show considerable variations. This works out to about 18 cents an hour for a 44 hour week and the building trades, 16½ cents an hour in the engineering trades and 15 cents an hour in the printing trades. Wages in the Canadian city are very much in excess of these rates. Bricklayers now receive 48 to 50 cents an hour, at least twice as much as similar workmen earn in Birmingham. Carriers get 37½ cents an hour. Printers earn \$11 a week or 36 cents an hour for a 48 hour week. Skilled mechanics earn on an average of 34½ cents an hour. In short, wages in the Canadian city range about one hundred per cent higher than those in England. But of course, the cost of living is decidedly greater in Canada. The Birmingham artisan gets his three-roomed dwelling for about four or five dollars a month, while for a five-roomed house he pays approximately \$8.00 to \$7.50 a month. To compare this rental with that in Hamilton, somewhat similar accommodation should be selected. A five roomed house of about the same character as the Birmingham house could be had for \$10 or \$11 a month, the Canadian rental being from 60 per cent to 65-75 per cent higher.

Comparing the elements of wages, rent and food costs, and noting that while wages are double in Canada, rents are only one-third greater and food very little higher, it must be evident that the workman is much better off financially in the Canadian city. This fact is illustrated in one way by his ability to save enough to buy his home and in another by the amount to his credit in the savings bank, and the value of his life insurance. He has more of the comforts of life, more leisure to enjoy them and a greater freedom of action, all due to the margin between earnings and expenses.

THINGS MADE IN CANADA

By Pauline Johnson

We don't need the maize of Europe or the trade of the eastern seas,
We don't need the Yankee's corn and wine, or the Atlantic's sails;
For 't is so good as our butter and cheese, and under the wide blue dome.

Will you tell me where you have tasted bread like the bread that is baked at home?
For we are the young and strong, and who so fit for the fight as we,
With our arms of steel and our iron hoofs, and our hearts like the oaken tree?

For we are the home-made, honest best, the pride of a princely land,
And the things produced in Canada are the things that her sons demand.

The Lethbridge Herald is about right when it says that single tax has had a tendency to double the worries of the town and village fathers all over the province. But then how about those who own the land on which single tax is based? They also have begun to figure out what it means.

TENDERS

Sealed tenders will be received by the undersigned up to July 22nd, at 6 P. M. for the erection of a solid brick fire hall, in the town of Wainwright, Alberta. Plans and specifications may be seen at the office of the undersigned, H. V. Fieldhouse, Sec. Trans. Wainwright, Alta.

TENDERS

Tenders will be received by the undersigned up to the 22nd day of July at 6 o'clock P. M. for the construction of certain cement side walks for the town of Wainwright. Plans and specifications of same may be seen at the office of the undersigned, or at the office of the Secretary-Treasurer. (Signed) W. B. Crawford, Chairman of Public Works Committee.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed tired at night. You must get into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

SAMPLE MARKET
FOR GRAINHow it Will Work Against the Best
Interests of the Farmers of the
Canadian Northwest

The object of the scheme is to establish a sample market in Winnipeg, where the grain of the Northwest is sold, and to determine the price of the grain at the time of sale. The grain is sold in bulk, and the price is determined by the market. The grain is sold in bulk, and the price is determined by the market. The grain is sold in bulk, and the price is determined by the market.

There are only about seventy-seven days from the time the crop commences to move in the fall of the year, until the close of navigation at the end of the season. The grain crop of Western Canada is taken from Port William and shipped across the Great Lakes by boat to the eastern markets. After the close of navigation the grain grown in the West will have to go across the lakes by boat, and the price of the grain will be determined by the market.

Under the proposed system of sampling, every carload of grain passing through Winnipeg will be sampled. The sample will be taken from the grain, and the price will be determined by the market. The sample will be taken from the grain, and the price will be determined by the market.

The delay in transit of cars arriving in Winnipeg on Saturdays will be much longer, as the samples taken from cars arriving at eleven o'clock or later on that day will not reach the grain exchange in order to be disposed of before it closed for that day. The delay in transit of cars arriving in Winnipeg on Saturdays will be much longer, as the samples taken from cars arriving at eleven o'clock or later on that day will not reach the grain exchange in order to be disposed of before it closed for that day.

MOONEY'S BISCUITS

BISCUITS MUST BE FRESH TO BE PALATABLE

MOONEY'S BISCUITS ARE THE FRESHEST BISCUITS

Fresh enough to take the place of the bread and biscuits you bake yourself.

Because the MOONEY system is so perfect that every biscuit is shipped

the same day it leaves the oven.

The big Winnipeg factory is so close that your grocer gets

MOONEY'S in a few hours, with long hauls and no deterioration.

Besides the demand for MOONEY'S—the popular

biscuit—is so great that his stock is always changing.

MOONEY'S never grows stale on the grocer's shelves.

That's one reason why

DO MOONEY'S PERFECTION

SODA BISCUITS

are fresher, crisper and more appetizing.

Ask for the big package or a sealed tin and judge

for yourself.

MOST PERFECT MADE

The Unburied Hatchet
A number of years a bitter feud between the Browns and the next door neighbors. The feud had originated through the actions of Brown's cat, and had so fixed an affair that neither party could be shaking up. Finally, however, Brown sent by his packman a note for Mr. Perkins to read.
"Perkins read his compliments to Brown and to say he was 'perking' his moraine."
Perkins's written reply was bit of trouble, but he had not heard that. Brown was ill.

Reason Enough
"You didn't ask for your two weeks' vacation?"
"I want to get married."

The Irrepressible Conflict
"Hoi sneered Tomlin. You ain't any more of a teacher than you are a mobile like my paps has."

"Well he ain't related Billie, but he is a teacher," said the principal in our attic that smells like one—Harp's Weekly.

What Did Noah live on when the flood had subsided has his priorities in the ark were exhausted: asked the Sunday school teacher of the ark on Sunday. "I know," quothed the little girl after all the others had given out a "Well what a beautiful teacher." "Dry land," TIG-BE.

Clerk—May I have a fortnight off? "I want to get married."
"You didn't ask for your two weeks' vacation?"
"I want to get married."

Winter—Three weeks with grip in the

conductor.
"I saw a seat and wanted to
before the man behind me could
it, the woman replied, calmly
to express.
The lady's wife turned outraged, as
or of principle.
"I will run for office and she felt it
duty to vote against him."
The woman's husband said:
"His Own Country."
"I am tired at snicker. Why
you go to a smoking compart-
ment?"
"Because I don't like
colored people," Pete Mele,
the man behind her, said.

Her Reason
Mrs. Bloodgood is sending out cards
for a little dance.
"Wants to entertain a few friends
does she?"
"Yes, and to snub a few more," hater
persuades Bazaar.

Sometimes It seems so
According to statisticians, only 5 per
cent of the American people are book
buyers. And to that 5 per cent are
added the books that the other 95 per
cent buy through agents—Detroit Free
Press.

Get Your New
Unforgettable
COPYBARY

SEE how handy my new granary is. You place four or five of them around your quarter section. This saves time in harvest, hauling to stacks."

"Then my granaries come in to hold your grain from each stack. My granary keeps grain clean, dry and unharmed. No musty grain, no losses from rats or vermin. When ready haul direct to the elevator from the granaries."

"I make several sizes of this handy granary. You can get 200, 300, 400, 500, 600, 800 bushel granaries guaranteed Imperial Bushel sizes (not cut down). U.S. bushels only. You need one and a half Federal Granary in half a day. Remember you can more it easier than you can a hog and a cow. Granary saves big money by cutting down on teaming and keeping the grain tight."

"See how the man at the left can shovel grain in from the troughs. It's simple. If it has no leg-up to deliver grain through man's reach, the horse can't do it."

The other man is bagging grain. Granaries are built with door-coupler or plain, as desired. My new Granary is built for saving cost. It's made of steel in a year. It comes in sections—low freight cost. A boy can set up. Write for my descriptive booklet.
